Mr. Santilli-Petronio,

I ultimately suggest you that this must be the last time that you cite my wife. If I should receive another message by you or by your idiots servants citing her, I promise you that I will come in Palm Harbor or I will meet you in Milan in Next November in order to destroy your ass-hole independently on the issue that you are 81 years old. If you want to commit your suicide, proceed in this direction.

Sincerely,  
Christian Corda
